## General Information:

I'm a software engineer born in 1988 in Colombia. Without much sugarcoating, I'm good at googling solutions to problems. In addition, I try to be creative using the different skills I possess. I like to keep my interests diversified and I enjoy programming. In fact, I've been doing it for over 15 years, 8 as a professional. My experience is mostly in Java (backend) but I've been using Python in academic and personal projects.

## Previous Jobs:

**Proximus** (Feb 2017 - Jul 2019 Belgium)  
Web-shop development mostly involved with the Rest API. Scrum teams, project with around 30 people total.

**Adneom** (Jun 2016 - Dec 2017 Belgium)  
Consultancy work for ENGIE (Electricity provider): support during migration of web application backend from Java to Python. BPost (Belgian postal service): JEE application.

## Academic Background:

Systems Engineer (Bachelor of Science) - Universidad Nacional de Colombia - 2010

Artificial Intelligence (Master Studies) - Vrije Universiteit Brussel - Unfinished degree

**Advaita** (Nov 2013 - Sep 2015 USA)

**Globant** (Jun 2012 - Oct 2013 Colombia)  
JEE development. Worked on several applications for external clients. Additional tests automation tasks.

## Information Technology Tools:

From more to less acquainted: Java, Spring, Hibernate, Git, Linux, Python, Postgres, Oracle, JavaScript, AWS, Google Cloud, Flutter, TensorFlow.

**Intergrupo** (Feb 2012 - May 2012 Colombia)  
Contractor for IBM. Development of a banking app using JEE.

**IGAC** (Oct 2010 - Dec 2011 Colombia)  
Development of the National Cadastral Information System. JEE project.

## Miscellaneous:

Interested in the study of complex systems and Artificial Intelligence. Amateur drums player. I like to learn, teach, and improve my languages knowledge. Finally, I also like hiking and contemplation of nature.
