General Information:

I'm a software engineer born in 1988 in Colombia. Good at problem solving and happy to always learn new things. In addition, I try to be creative using the different skills I possess. I like to keep my interests diversified and I enjoy programming. In fact, I've been doing it for over 15 years, 8 as a professional. My experience is mostly in Java (backend) but I've been using Python in academic and personal projects.

Academic Background:

Systems Engineer (Bachelor of Science) – Universidad Nacional de Colombia – 2010

Artificial Intelligence (Master Studies) – Vrije Universiteit Brussel – Unfinished degree

Information Technology Tools:

From more to less acquainted: Java, Spring, Hibernate, Git, Linux, Python, Postgres, Oracle, JavaScript, AWS, Google Cloud, Flutter, TensorFlow.

Miscellaneous:

Interested in the study of complex systems and Artificial Intelligence. Amateur drums player. I like to learn, teach, and improve my languages knowledge. Finally, I also like hiking and contemplation of nature.

Previous Jobs:

Proximus (Feb 2017 – Jul 2019 Belgium)
Web-shop development mostly involved with the Rest API. Scrum teams, project with around 30 people total.

Adneom (Jun 2016 – Dec 2017 Belgium)
Consultancy work for ENGIE (Electricity provider): support during migration of web application backend from Java to Python. BPost (Belgian postal service): JEE application.

Advaita (Nov 2013 – Sep 2015 USA)
